MS. CINDY ERMITANIO
HRMD Supervisor
Cagayan I Electric Cooperative, Inc. (CAGELCO I)
Main Office — Maddarulug, Solana, Cagayan
Email: *cagelco1@yahoo.com* / *hrmd.cagelco1@gmail.com*

Dear Ms. Ermitanio,

I am writing to formally express my keen interest in applying for the **Computer Programmer (1)** position at **Cagayan I Electric Cooperative, Inc. (CAGELCO I)**, as recently announced by your Human Resource Management Department for the application period of October 29 to November 6, 2026.

As a graduate of **Bachelor of Science in Information Technology (BSIT)** from Cagayan State University—recognized as **Programmer of the Year (Class of 2023)** and a consistent 4-year Dean's Lister—I bring over **three (3) years of proven full-stack software development experience** along with mission-critical government IT support background. I am confident that my technical expertise, systems analysis skills, and strong dedication to public service will allow me to contribute immediately to CAGELCO I's operational and consumer service systems.

I carefully reviewed your qualification requirements and am pleased to demonstrate how my background directly aligns with and exceeds each standard:

- **3+ Years of Systems Development & Programming:** As Lead Developer at NeKo-SysDev and author of 60+ GitHub repositories, I have architected and deployed over 30 complete web, mobile, and desktop systems. My technical stack includes **PHP (OOP / Laravel), MySQL, JavaScript, C#, Visual Basic .NET, and Kotlin**, with extensive experience engineering database architectures, automated billing and inventory logic, SMS alerting gateways (PhilSMS), and secure reporting modules.
- **Exceeding 18 Hours of Specialized Training:** I have completed intensive, industry-standard training that far exceeds the required 18 hours, including the **320-hour TESDA Computer System Servicing (CSS) NC II** qualification, the **Google IT Support Professional Certificate**, the **Google AI Essentials** certification, and specialized coursework in **.NET Full Stack Foundation** (ASP.NET and C#).
- **Demonstrated Honesty, Integrity, and Confidentiality:** Having served as an **IT Support Specialist at the Commission on Elections (COMELEC) Region 2** (July 2023 – Dec 2025), I handled highly sensitive electoral databases, user authentication protocols, and mission-critical automated voting infrastructure under strict regulatory compliance and zero-compromise standards.

Electric cooperatives demand dependable, error-free automated systems—from member-consumer billing, collection reconciliation, and service outage alerts to internal workflow management. My hands-on familiarity with relational database management (MySQL/MSSQL), API integrations, and prompt technical support positions me to optimize and maintain CAGELCO I's internal applications and support future digital transformation initiatives.

Enclosed with this letter are my comprehensive resume and pertinent credentials for your review. I would welcome the opportunity to discuss how my programming capabilities and proactive work ethic can serve CAGELCO I. Thank you for your time, consideration, and service to our province.

Sincerely yours,

GLENARD U. PAGURAYAN
Applicant — Computer Programmer
